

PRACTITIONER™ IN-HOUSE

Create legally defensible environmental documentation and give your client's expert guidance with how-to-guides, charts, and checklists.

Practitioner Workflow: Preparing & Reviewing an Environmental Impact Report (CEQA)

LAW BOOKS

From housing projects to mixed use developments and much more, ensure your CEQA & municipal law guidance and documentation matches the interpretations of the law used by California City Attorneys and judges:

Practice Under the California Environmental Quality Act

California Land Use Practice

California Subdivision Map Act and the Development Process

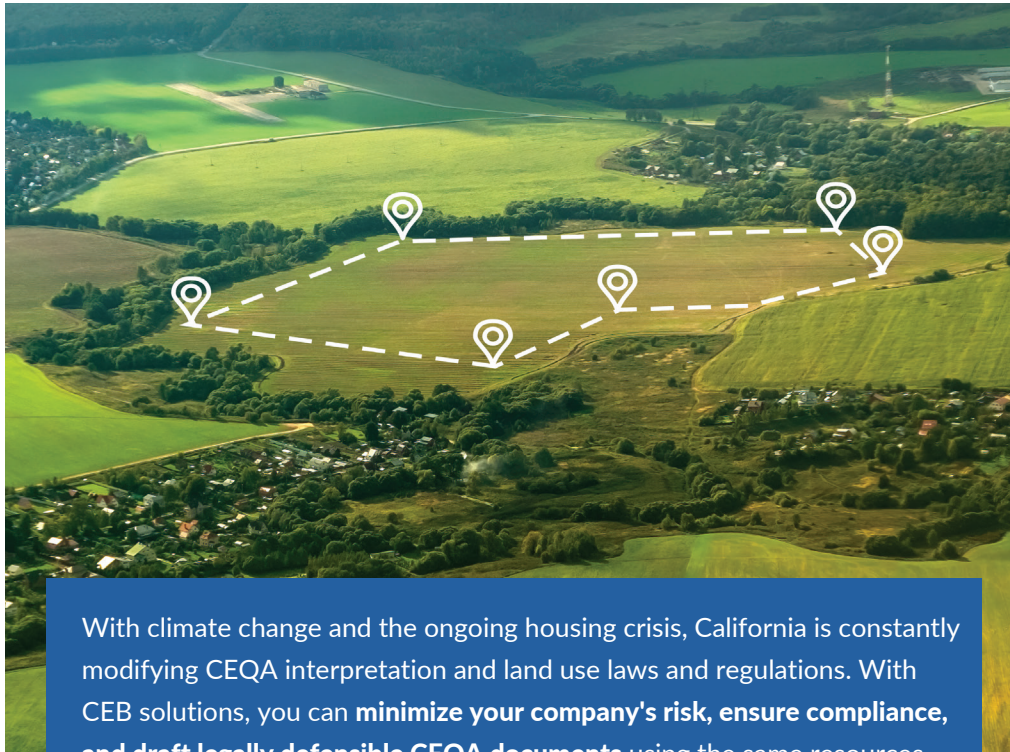

California Municipal Law Handbook

CLE

Stay current on the ever-changing CEQA laws, developments, and interpretations so you can advise clients on the latest changes and developments.

Monthly CEQA case law updates MCLE

CEQA and Land Use Compliance

With climate change and the ongoing housing crisis, California is constantly modifying CEQA interpretation and land use laws and regulations. With CEB solutions, you can **minimize your company's risk, ensure compliance, and draft legally defensible CEQA documents** using the same resources the judge will use to analyze CEQA when a project is challenged.

CEB gives you access to court-tested resources to help you navigate and ensure compliance with CEQA regulations and municipal law.

Why CEB?

CEB is a nonprofit program of the University of California and has been the most trusted name in California law since 1947.

- Unmatched county-specific local guidance created in collaboration with sitting judges
- Trusted by law firms and companies of all sizes, providing high-quality resources
- Nonprofit organization with a public service mission of improving access to justice and the delivery of legal services to underserved communities in California
- Best-in-class legal search to find the most relevant answers, faster
